PROFESSIONAL SUMMARY

Full Stack Developer with experience building responsive web applications using Laravel and React.js. Passionate about creating scalable, user-friendly applications and continuously improving through modern web technologies.

WORK EXPERIENCE

Fullstack Developer

March - Present 2026

AP Creative Advertising Corporation

- Developed production web applications for LOBO Superclub & VIP JTV and Al Qaysar Restaurant using Next.js, React, TypeScript, and PostgreSQL.
- Integrated Xendit and Lalamove APIs to automate payment processing and delivery workflows.
- Built secure authentication, RESTful APIs, and admin dashboards for reservations, orders, payments, and customer management in Al Qaysar Delivery Web App.
- Built and maintained admin dashboards for reservations, orders, payments, deliveries, customer management, reports, and content management in Lobo Superclub & VIPT JTV.
- Maintained and enhanced production websites for Pro Group E-Bike and Neon Nights Bar Club.

Junior Fullstack Developer

March - July 2025

NTT Limited Philippines

- Developed and maintained features for internal web applications using Laravel and React.js.
- Built and enhanced back-office systems for administrators and player-side features for end users.
- Integrated RESTful APIs and conducted API testing using Postman in an Ubuntu Linux environment.

PHP Developer

January 2024 - February 2025

Golden Arrow Digital Solutions

- Integrated RESTful APIs and built backend logic using PHP design patterns with a PostgreSQL database.
- Created and executed unit and feature tests with Postman and Laravel testing tools.
- Contributed to front-end redesign using Blade templates and improved UI/UX performance.

CAPSTONE PROJECT / THESIS

March - December 2022

Water Level and Flood Alert Notifier For The Municipality Of Macabebe, Pampanga.

- Real-Time Flood Alert System for Macabebe, Pampanga with SMS notifications. Features include real-time water level monitoring, flood history records, SMS settings managed by admin, user registration, and a dashboard. Explore more on my portfolio website.
